

A Message from Superintendent Hoernemann

Did you miss the State of the Schools? State of the Schools? Doesn't that sound pretentious? Well, we used that title for recent presentations because it was descriptive. In January we welcomed about 40 guests to the administration center to hear about our schools. If you have time and patience to download the videos and slides, you can access various segments (Introduction/Strategic Plan; Growth and Demographics; Transportation; Technology; School Funding; Teacher Compensation; Property Tax Impact; and the Imperfect Storm) of the presentation at <http://www.avon-schools.org/Page/11118>.

In this same effort to focus on the Corporation's Strategic Plan Goal #3 to enhance communications at all levels to build stronger, richer and more authentic relationships, please be sure to view the Corporation Snapshot to learn some interesting facts about this great school system. It can be viewed at <http://bit.ly/1cQTQfx>.

I am also happy to share a new Video Archive Page that features several informational district-related videos. Please visit <http://www.avon-schools.org/Page/10801> to view the following videos: (1) Avon District Video; (2) Avon Indiana Science Initiative; and (3) Avon Work Study Program and (4) Outdoor Learning Center. We will be adding more in the near future.

There has never been a more challenging era in our school system's history. We are all concerned about class sizes and financial challenges yet we cannot even begin to address these issues without our community understanding the complexity of our financial state. Reviewing the State of the Schools segments discussed above will give you a great start. It will take time but we hope you will find it time well spent as we will need your input as we move forward.

As always, feel free to email me at mehoernemann@avon-schools.org.

Sincerely,

Margaret Hoernemann
Superintendent

Educate. Excite. Excel.
