### rSchool Calendar Links

With the beginning of a new season and school year, we are migrating over to a new scheduler. The rSchool program is accessible to parents where you can do the following things:

1. View schedules online
2. Get notifications about changes
3. Sign up to view only the events your child is involved
4. Much more

Please visit the following address or download the rSchool app to your phone.

[www.avoncalendars.org](http://www.avoncalendars.org)

Click on Avon North Middle School and a calendar will populate on that screen.

On the right hand side of this screen, you can select to view schedules, get the app or receive notifications.

You will need to create an account to receive notifications.

Please remember that our schedules can change, so remain patient with us as we navigate through our new system.
