Sec. 1. “Eligible institution” means an accredited public or private college or university located in Indiana that grants a baccalaureate or associate degree. “Program” refers to the postsecondary enrollment program established under IC 20-30-11. “Secondary credit” means credit toward graduation requirements granted by a student's school corporation upon the successful completion of a course taken under the program.

Sec. 2. (a) A student may, upon approval of that student's school corporation, enroll in courses offered by an eligible institution under the program on a full-time or part-time basis during grade 11, grade 12, or both. A student who participates in the program shall be considered a student enrolled in the school corporation in computing average daily membership as defined in IC 21-3-1.6-1.1(d).

(b) If a course has been approved for secondary credit by the school corporation, a student is entitled to credit toward graduation requirements for each course the student successfully completes at that institution. The student's school records must indicate that the credits were earned at an eligible institution.

(c) Before February 1 each year, the school corporation shall provide each student in grades 10 and 11 with information concerning the program.

(d) Each student who intends to enroll in an eligible institution under the program shall notify the principal of the school in which the student is enrolled. A representative of the school corporation shall meet with
each student who intends to participate in the program and discuss the following:
(1) The student’s eligibility to participate in the program.
(2) The courses in which the student is authorized to enroll.
(3) The secondary and postsecondary credit the student earns upon successful completion of a course.
(4) The consequences of a student’s failure to successfully complete a course.
(5) The student’s schedule.
(6) The financial obligations of the student and the school under the program.
(7) The responsibilities of the student, the student’s parent or guardian, and the school under the program.
(8) Other matters concerning the program.
(e) The representative of the school corporation shall make a recommendation to the principal concerning the student’s participation in the program.
(f) The principal shall make a determination, based on the recommendation received under subsection (e) of this section and the policy adopted under 511 IAC 6-10-4, concerning:
(1) the student’s eligibility to participate in the program; and
(2) the courses approved for secondary credit.
(g) The principal shall notify the student and the superintendent of the school corporation, in writing, of the determination under subsection (f) of this section. If the principal determines that:
(1) the student is not eligible to participate in the program; or
(2) a course in which the student intends to enroll is not approved for secondary credit;
the principal must state, in writing, the reasons for that determination.

Sec. 3. (a) If a student disputes a determination made by the principal under 511 IAC 6-10-2(f), the student may appeal the determination to the governing body by submitting to the governing body, in writing, the reasons the student objects to the determination. The governing body shall review a determination made under 511 IAC 6-10-2(f) and render a decision concerning that determination. The governing body shall notify the student and the principal, in writing, of its decision.
(b) If the student or the principal disputes the decision of the governing body under subsection (a) of this section, that individual may appeal to the state board of education. The decision of the state board of education is final.

Sec. 4. (a) The governing body of each school corporation shall adopt policies to implement the program, based on 511 IAC 6-10 and guidelines established by the department of education. The policy shall include:
(1) The criteria for determining eligibility to participate in the program, which may include:
(A) A provision that a student is ineligible to participate if participation would delay the student's progress toward high school graduation.

(B) A provision that a student is ineligible to participate in the program if the request is for enrollment in a course offered by the student's school and participation would result in cancellation of the course due to low enrollment.

(2) The criteria for determining the courses approved for secondary credit, which may include a provision that a course in which the student intends to enroll is not approved for secondary credit if the course is so unlike any of the approved courses listed in 511 IAC 6-2-5(d) [511 IAC 6-2-5 was repealed filed Nov 8, 1990, 3:05 p.m.: 14 IR 663.] that appropriate secondary credit cannot be given.

(b) The adopted policy may not prohibit a student from enrolling in or attending an education program when the student is not required to be in attendance at the student's school corporation.

(c) In addition to adopting a policy to implement the program, the governing body of a school corporation may:

(1) establish a supplemental postsecondary education program for students of the school corporation;

(2) establish procedures to permit students, including students in grades below grade 11, to enroll in and attend courses at eligible institutions during the regular school day or regular school year; and

(3) establish procedures to award secondary credit for courses completed by students at eligible institutions.

Sec. 5. (a) For each of its students enrolled in the program, a school corporation shall make and maintain records of the following:
