

Snap&Read & Co-Writer Extension Install for Personal Computers

NOTE: Install links are blocked on campus – install from personal wifi on personal laptops at home.

If install is needed on school owned laptop, ask teacher to submit a help desk ticket on your behalf and provide laptop name (sticker on bottom of device).

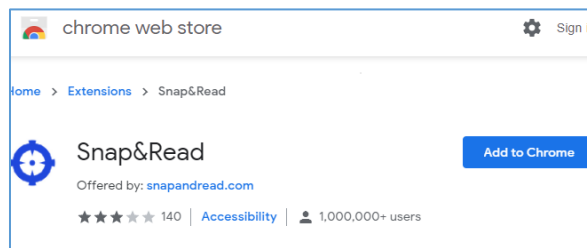

To install the extension on personal devices:

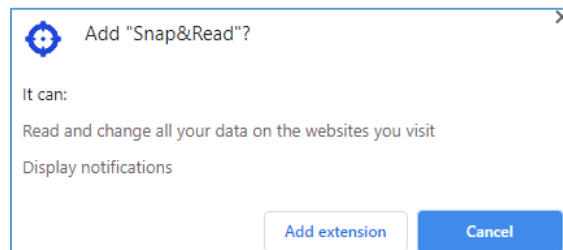

- Launch Chrome or Edge browser
- Click this link for snap&read: <https://snapandread.com/>
- Click this link for co-writer: <https://cowriter.com/>
- Click Sign in/Sign in with Microsoft/school email & network password.
- Click on your name on top right toolbar/click install/choose according to browser you launched (chrome or edge or iOS)

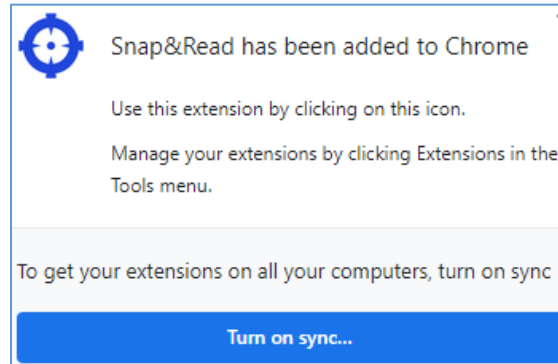

- Click add to chrome/edge/iOS

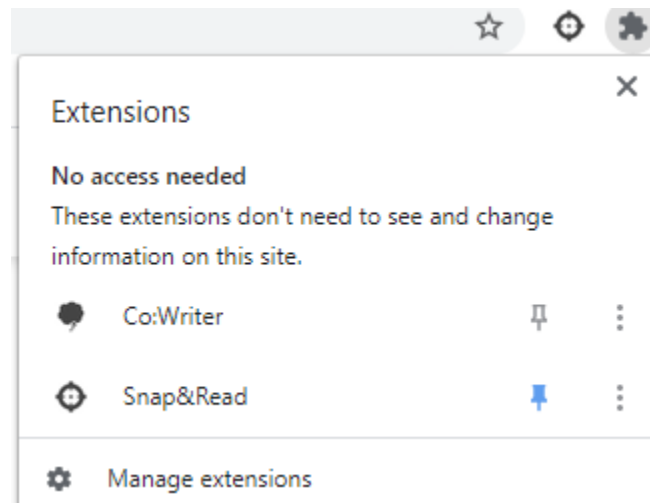

- Click add extension to confirm install

- Close the box that asks you to turn on sync – **DO NOT SYNC** or it will prompt you to sign into a Google account and use your personal email and not school email. If you did a sync and see your personal email, click your name on top right and sign out and sign back in with Microsoft account instead.

- You should see the snap and read  or co-writer icon  on the top right toolbar. It may be hidden (if you see the puzzle piece icon  instead).
- If it is hidden, you can click the puzzle piece icon and then click on the thumbtack icon to pin to your toolbar.
