Directions for Downloading and Connecting to VMWare View from iOS device

BE SURE TO LOG OFF WHEN YOU ARE DONE TO RELEASE YOUR SESSION

To log off: click on the Windows Start Icon on left toolbar and then the People icon and choose “sign out” and then close

- Search for and add the VMWare View Client from the App store to your device
- Go to Settings on device
- Select VMWare View

- Select Certificate checking mode
- Select Do not verify identity

- Go to VMWare View app
- **Step Seven:** Select Add Server

- Enter the Connection Server—view.avon-schools.org
- Connect
- Enter ACSC username and password, just like you were logging into your school computer
- Click on ACSC Available
