

Save Schoology Course to Resources

If your course has course folders, you can save all of your folders and materials in the course to Resources.

1. Navigate to the course profile of the course you'd like to save to Resources.
2. Click on the Options button.
3. Select the option to Save Course to Resources.
4. Select the Resource Collection in which you'd like to house your course material. If you haven't created a collection, you can add the course to your Home collection.
5. Select a folder within the collection to which you'd like to save your course material (optional).
6. Click Submit to complete.

Note: Depending on the amount of materials in the course, it may take some time to save the course to Resources. Only course materials will be saved to resources. Other course items, such as members, profile picture, and events will not save to resources.
